

4. Additional Contact Information and any additional description or information

Calling port sequence of M/V Hanjin Brussels are KRPUS-CAPRR-USSEA-USPDX-CAVAN-KRPUS.

Due to lack of LSGO(S MAX 0.1%), we can supply LSGO(S MAX 0.1%) 150 m/t only at KRPUS.

M/V Hanjin Brussels had LSGO 234.9 m/t at KRPUS departure. While sailing until USSEA, LSGO will be consumes almost.(Depending on actual LSGO consumption quantity, the period of LSGO use can be extend.)

We had plan the LSGO bunkering at CAPRR, to meet ECA regulation, and we try to supply additional LSGO at Prince Rupert, but we are found out that supplier has only LSGO of flash point below 60'C for vehicles. So we cannot supply this LSGO, because it does not meet SOLAS regulation.

Next LSGO supply port is USSEA, we already arrange LSGO at USSEA

Please refer below message.

Dear Mr.Choi,

Thanks for your enquiry.

It is regrettable to advise that we are not able to offer as Low Sulphur Marine Gas Oil (LSMGO) is not available at Prince Rupert. Thanks

Thanks and B.Regards,

J.H.Kim / Country Manager
